

VG101 — Introduction to Computer and Programming

Worksheet (chapter 9)

Manuel — UM-JI (Summer 2019)

Worksheet concept

- Simple exercises based on the slides
- Optional personal work
- No submission, no grading
- Only refer to websites in English

Ex. 1 — *Slide questions*

Ensure you can answer all the questions appearing in chapter 9.

Ex. 2 — *Reading*

Read about input/output in C++ at <https://en.cppreference.com/w/cpp/io/manip>.

Ex. 3 — *Pointers and I/O*

Rewrite the code from slide 7.?? using C++ style input/output and pointers.

Ex. 4 — *C++ practice*

Reimplement all the examples from the end of chapter 8 using C++.
