VG101 — Introduction to Computer and Programming

Worksheet (chapter 3)
Manuel — UM-JI (Summer 2019)

Worksheet concept

- Simple exercises based on the slides

- Optional personal work

- No submission, no grading

- Only refer to websites in English

Ex. 1 — *Slide questions*
Ensure you can answer all the questions appearing in chapter 3.

Ex. 2 — *Reading*
Read Matlab documentation for the following functions: `save`, `load`, `(s|f)printf`, `rand`, `fopen`, `fclose`, `randperm`.

Ex. 3 — *Algorithm*
Solve the problem 3.**??** using an alternative algorithm and different Matlab functions.

Ex. 4 — *Recursion*

1. Implement the algorithm on slide 3.**??**.
2. Implement the algorithm on slide 3.**??**.
